

KINSHIP CARE PARTNER SCHEDULE · LEGAL

Version v1.0 · effective 19 August 2026 · withkinship.ai/legal/care-partners/v1-0

Kinship Care Partner Schedule

Where a Kinship Plan includes care delivered in the Plan Member's own country, that care is delivered by the **"Care Partner"**: the local Kinship company for that country. Your Plan always names its Care Partner, and the Care Partner named in an existing Plan never changes without the notice and rights your Plan terms give you. This schedule lists the current Care Partner for each country where care is available, for Plans built today.

Country	Care Partner	About the company	Local currency
Nigeria	Kinship Management Service Limited ("KMSL")	An independent company registered in Nigeria, RC 9651688	Naira (NGN)

How this schedule works

Each Care Partner is an independent local company. It delivers care services in its country - some as our subcontractor, and the care membership itself under its own agreement with the Plan Member - and it holds the group arrangement through which the Benefit Provider enrolls Plan Members there. Where the app offers it, people in that country can also contribute to a Plan in local currency through the Care Partner, under the Care Partner's own contribution terms.

When Kinship opens in a new country, we publish a new version of this schedule naming that country's Care Partner; every earlier version remains available at its own address. Adding a country never changes the terms of any existing Plan.
